#### III Accounting standards and Accounting system

##### 1. Accounting System:

The company applies Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC dated 22 December, 2014 by Minister of Finance on guideline enterprise accounting and Circular No. 53/2016/TT-BTC dated 21 March, 2016 by Ministry of Finance amending and supplementing some articles of Circular No. 200/2014/TT-BTC.

##### 2. Announcement on compliance with Vietnamese standards and accounting system

The company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current accounting system.

##### 3. Applicable accounting form

The company applies computerized bookkeeping, using Fast Accounting software.

#### IV Accounting policies

##### 1. Recognition of cash and cash equivalents

Cash is a synthetic indicator reflecting the total amount of money available to the enterprise at the reporting time, including cash in the enterprise's fund and non-term bank deposits recorded and reported in Vietnamese Dong (VND), in accordance with the provisions of the Accounting Law No. 03/2003/QH11 dated June 17, 2003.

##### 2. Inventory:

- Inventory recognition principle: Inventory is calculated at original cost.

The original cost of inventories includes: Purchase costs, processing costs and other directly related costs incurred in bringing the inventories to their present location and condition.

- Method of calculating ending inventory value: Month-end weighted average method

- Inventory accounting method: Perpetual method

- Method of setting up inventory price reduction provision: Provisions for devaluation of inventories made at the end of the year are the excess of original cost of inventory over their net realizable value.

##### 3. Fixed assets and depreciation of fixed assets

##### 3.1. Tangible fixed assets:

- Principles of recognition of tangible fixed assets:

Tangible fixed assets are recorded at original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and remaining value.

The recording of tangible fixed assets and depreciation of fixed assets are carried out in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets, Circular No. 200/TT-BTC dated December 22, 2014 of the Ministry of Finance, Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance guiding the management, use and depreciation of fixed assets.

The initial cost of a tangible fixed asset comprises its purchase price (net of any trade discounts or rebates), any taxes and any directly attributable costs of bringing the asset to its working condition for its intended use.

Expenses incurred after the initial recognition of tangible fixed assets are recorded as an increase in the original cost of the asset when these expenses certainly increase future economic benefits. Expenses incurred that do not satisfy the above conditions are recorded by the Company as production and business expenses in the period.

- Fixed asset depreciation method

The Company applies the straight-line depreciation method for tangible fixed assets. Tangible fixed asset accounting is classified according to groups of assets with the same nature and purpose of use in the Company's production and business activities, including:

#### 11. Principles and methods of revenue recognition

The Company's revenue includes construction revenue, project house sales revenue, commercial concrete sales, materials sales, testing service revenue and interest revenue from deposits and loans.

Construction revenue is determined based on the value of the volume of work performed, confirmed by the customer through acceptance, settlement, and issuance of VAT invoices, in accordance with the provisions of Vietnamese Accounting Standard No. 15 - "Construction Contract".

Revenue from the sale of commercial concrete is determined at the fair value of the amounts received or to be received according to the accrual principle, recorded when the finished product is transferred to the customer, the invoice is issued and the customer accepts payment, in accordance with the 5 conditions for revenue recognition specified in Vietnamese Accounting Standard No. 14 - "Revenue and other income".

Revenue from project housing sales: For completed apartments, revenue and cost of sales are recognized when the majority of risks and rewards of ownership have been transferred to the buyer. For apartments sold before the construction is completed, revenue and cost of sales are recognized based on the percentage of completion at the end of the accounting period. Accordingly, the Company is responsible for completing the construction of the apartment, the buyer pays according to the construction progress and accepts the benefits and risks from market fluctuations.

Revenue from providing location rental services is determined when the service is completed, invoices are issued and customers accept payment, in accordance with the 4 conditions for revenue recognition specified in Vietnamese Accounting Standard No. 14 - "Revenue and other income".

Advances from customers are not recognized as revenue in the period.

#### 12. Principles and methods of recording financial expenses

Financial expenses recorded in the interim consolidated income statement are the total interest expenses incurred during the period, less capitalized interest expenses.

#### 13. Principles and methods of recording current corporate income tax expenses and deferred corporate income tax expenses

Current corporate income tax expense is determined on the basis of taxable income and corporate income tax rate in the current year.

#### 14. Foreign exchange risk hedging operations

#### 15. Other accounting principles and methods

##### 15.1. Principles of recording receivables and payables

Principles for determining customer receivables are based on the Contract and recorded according to the Sales Invoice issued to the customer.

Advance payments to sellers are accounted for based on payment vouchers, bank documents and economic contracts.

Principles for determining payables to sellers are based on the Contract, warehouse receipt and recorded according to the seller's Sales Invoice.

Advance payments from buyers are recorded based on contracts, receipts, and bank documents.

##### 15.2. Principles of recording short-term and long-term loans

##### *Value Added Tax*

Enterprises apply VAT declaration and calculation according to the guidance of current tax law with VAT rate of 10% for commercial concrete, construction works and testing services; 5% for housing business for low-income people.

##### *Corporate income tax*

The Company applies a corporate income tax rate of 10% on taxable profits for social housing business activities and 20% on taxable profits for normal business activities.

**NOTES TO THE FINANCIAL STATEMENTS**
