6. Unusual items and significant events occurring after the fiscal year-end

As of the date of this report, the Company's Board of General Directors believes that no unusual events have occurred after the accounting closing date that would affect the Company's financial position and operations, requiring adjustments to the separate financial statements for the accounting period ending on March 31, 2025.

7. The Board of General Directors' statement of responsibility

The Executive Board of the Company is responsible for the preparation of the separate financial statements and for ensuring that these financial statements give a true and fair view of the Company's financial position as of March 31, 2025, as well as its results of operations and cash flows for the accounting period ended on the same date. In preparing these separate financial statements, the Executive Board is required to:

- Design and implement an effective internal control system for the purpose of properly preparing and presenting the financial statements so as to minimize errors and frauds;
- Select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business;

The Board of General Director is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of General Director is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of General Director confirms that the Company has complied with the above requirements in preparing these financial statements.

Additionally, the Board of General Director affirms that the Company has not violated any disclosure obligations as stipulated in Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance, providing guidance on information disclosure in the securities market.

8. Opinion of the Board of General Director

In the opinion of the Executive Board, the separate financial statements give a true and fair view of the Company's financial position as of March 31, 2025, as well as its results of operations and cash flows for the accounting period ended on the same date, and have been prepared in accordance with the Vietnamese Accounting Standards, the current Vietnamese Enterprise Accounting System, and the relevant legal regulations on the preparation and presentation of separate financial statements.

Northern Paint Factory	No. 59 Thien Duc Street, Yen Vien Town, Gia Lam District, Hanoi City.
Branch in Da Nang City	Lien Chieu Industrial Park, Hai Chau District, Da Nang City

2 BASIS OF PREPARATION OF FINANCIAL STATEMENTS**Accounting Standards and Accounting Regime**

The Company applies the Vietnamese Accounting Standards and the Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance, Circular No. 75/2015/TT-BTC dated May 18, 2015, and Circular No. 53/2016/TT-BTC dated March 21, 2016, which amends and supplements certain provisions of Circular No. 200/2014/TT-BTC, providing guidance on the enterprise accounting regime.

3 FINANCIAL YEAR, CURRENCY USED IN ACCOUNTING

The Company's financial year starts on January 1st and ends on December 31st of the calendar year.

The currency used in accounting is the Vietnam Dong (VND).

The number of employees as of December 31, 2024, is 92.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**4.1. Accounting Estimates**

The preparation and presentation of the Company's separate financial statements for the period ended December 31, 2024 in accordance with Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime require the Board of Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets and the disclosure of contingent liabilities and assets at the end of the financial period as well as the reported

NOTES TO THE INTERIM SEPERATE FINANCIAL STATEMENTS (continue) Form No. B09A-DN
For the accounting period ending on March 31, 2025

amounts of revenue and expenses during the financial period. Actual business results may differ from the estimates and assumptions made.

4.2. Cash and Cash Equivalents

Cash comprises cash on hand and bank deposits.

4.3. Receivables

Receivables are presented in the financial statements at the carrying amount of receivables from the Company's customers and other receivables plus the allowance for doubtful debts. At the reporting date, if:

- Receivables with a collection or payment period of less than 1 year (or within one business production cycle) are classified as Current Assets;
- Receivables with a collection or payment period of more than 1 year (or more than one business production cycle) are classified as Long-term Assets.

The allowance for doubtful debts represents the estimated loss due to non-payment of receivables arising from the balance of receivables at the end of the financial period.

Provision for doubtful debts is made for receivables that are overdue for six months or more or receivables that are unlikely to be paid by the debtor due to liquidation, bankruptcy or similar difficulties (excluding overdue customers who are making payments or have committed to making payments in the near future).

4.4. Inventories

Inventories are recognized at the lower of cost and net realizable value.

The cost of inventories includes purchase costs, processing costs, and other directly related costs incurred to bring the inventories to their present location and condition for their intended use.

The net realizable value of inventories is determined by the estimated selling price less the estimated costs necessary to make the sale.

The Company uses the perpetual inventory method to record inventories with the value determined as follows:

The value of inventories is determined using the monthly weighted average cost method.

4.5. Tangible fixed assets and depreciation

Fixed assets are recorded at their original cost and accumulated depreciation.

4.5.1. Tangible Fixed Assets

The original cost of tangible fixed assets includes the purchase price and any costs directly related to bringing the asset to a condition and location ready for use. The cost of tangible fixed assets by self-construction or self-production includes the construction cost, actual manufacturing cost incurred, plus installation and testing costs. Costs for upgrading tangible fixed assets are capitalized and added to the original cost of the asset, maintenance and repair costs are charged to the operating results for the period. When tangible fixed assets are sold or disposed of, the cost and accumulated depreciation are written off and any gains or losses arising from the disposal of tangible fixed assets are included in the income statement.

Depreciation of tangible fixed assets is calculated using the straight-line method, applied to all assets at rates determined to allocate the original cost over the estimated useful life, in accordance with legal regulations.

The depreciation periods for the Company's tangible fixed assets are as follows:

Buildings and structures	03 - 25 years
Machinery and equipment	03 - 08 years

NOTES TO THE INTERIM SEPERATE FINANCIAL STATEMENTS (continue) Form No. B09A-DN
For the accounting period ending on March 31, 2025

Transportation vehicles	05 - 06 years
Office equipment	03 years

4.5.2. Intangible fixed assets

The historical cost of intangible fixed assets includes the purchase price and direct costs related to preparing the asset for its intended use. Costs incurred for upgrading the asset are capitalized into the historical cost of the intangible fixed asset; other costs are recognized in the income statement for the period. When an intangible fixed asset is sold or disposed of, its historical cost and accumulated amortization are written off, and any gain or loss arising from the disposal of the asset is recognized in the income statement.

The amortization of intangible fixed assets is calculated using the straight-line method, applied uniformly to all assets at rates determined to allocate the historical cost over their estimated useful lives, in accordance with the guidelines in Circular No. 200/2014/TT-BTC dated December 22, 2014, issued by the Ministry of Finance, and Vietnamese Accounting Standard No. 04, "Intangible Fixed Assets."

The amortization periods for intangible fixed assets of the company are as follows

Software	05 years
----------	----------

4.5.3. Finance leased fixed assets

The historical cost of finance-leased fixed assets is recognized at the fair value of the leased asset or the present value of the minimum lease payments (whichever is lower, in cases where the fair value exceeds the present value of the minimum lease payments), plus any directly attributable initial costs related to the finance lease. If input VAT is deductible, the present value of the minimum lease payments does not include the VAT payable to the lessor.

Amortization of intangible fixed assets is calculated using the straight-line method, applied uniformly to all assets at rates determined to allocate the historical cost over their estimated useful lives, in accordance with the guidelines in Circular No. 200/2014/TT-BTC dated December 22, 2014, issued by the Ministry of Finance, and Vietnamese Accounting Standard No. 06, 'Leases'

4.6. Financial Investments

The value of investments in subsidiaries is determined based on the original cost. The parent company only records in the income statement the amount distributed from the accumulated net profit of the investee arising after the date of investment. Other amounts that the parent company receives in addition to the distributed profit are considered as the recovery of investments and are recorded as a reduction in the original cost of the investment.

Long-term Financial Investments

A subsidiary is a company in which the Company has the power to govern the policies and operations in order to derive economic benefits from its business activities. Equity investments in other entities represent investments in equity instruments where the enterprise does not have control, joint control, or significant influence over the investee. Provision for investment devaluation is recognized at the end of the financial year as the difference between the original cost of investments recorded in the accounting books and their market value at the time the provision is established.

4.7. Prepayments

Prepaid expenses include tools and equipment, the value of assets that do not qualify as fixed assets, exploration rights, and other prepaid expenses. Prepaid expenses will be gradually

NOTES TO THE INTERIM SEPERATE FINANCIAL STATEMENTS (continue) Form No. B09A-DN
For the accounting period ending on March 31, 2025

allocated to production and business expenses over a reasonable period of time from the time they arise.

4.8. Payables

Payables are presented in the financial statements at the book value of amounts owed by the Company to customers and other payables, detailed by each creditor. At the reporting date, if: The payable is due within one year (or within one production cycle), it is classified as a current liability;

The payable is due after one year (or more than one production cycle), it is classified as a non-current liability.

4.9. Borrowing Costs

Borrowing costs include interest expenses on borrowings and other costs incurred in connection with the borrowing process, which are recognized as financial expenses in the year unless such borrowing costs are capitalized as part of the cost of an asset. Capitalization is applied when the costs are directly attributable to the acquisition, construction, or production of qualifying assets that meet the capitalization criteria in accordance with the accounting standard on borrowing.

4.10. Accrued Expenses

Accrued expenses include the value of expenses that have been recognized in the business operating costs for the financial period but have not been actually paid by the end of the financial period, including auditing expenses and construction expenses. When these expenses are actually incurred, if there is any difference from the amount previously accrued, the accountant will record additional expenses or reduce the expenses corresponding to the difference.

4.11. Owners' Equity**Owner's Equity Contribution**

Owner's equity contribution is recognized based on the actual capital contributed by shareholders

Share Premium

Share premium is recognized as the difference between the issue price and the par value of shares upon the initial issuance, additional issuance, the difference between the reissue price and the book value of treasury shares, and the equity component of convertible bonds upon maturity. Direct costs related to additional issuance of shares and the reissuance of treasury shares are deducted from the share premium.

Reserves

Reserves are established and utilized in accordance with the resolutions of the General Meeting of Shareholders.

Profit Distribution

After-tax profit is distributed to shareholders after allocations to reserves as stipulated in the Company's Charter and legal regulations, and upon approval by the General Meeting of Shareholders.

The distribution of profits to shareholders takes into consideration non-cash items included in undistributed after-tax profits, which may affect cash flow and the ability to pay dividends, such as gains from the revaluation of assets contributed as capital, gains from the revaluation of monetary items, financial instruments, and other non-cash items

NOTES TO THE INTERIM SEPERATE FINANCIAL STATEMENTS (continue) Form No. B09A-DN
For the accounting period ending on March 31, 2025

4.12. Revenue

Revenue is recognized when the outcome of the transaction can be reliably measured, and the Company is likely to obtain economic benefits from the transaction.

- (i) Sales revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, the goods have been delivered to and accepted by the customer.
- (ii) Revenue from service provision is recognized when the significant risks and rewards have been transferred to the customer, the service has been rendered, and accepted by the customer.
- (iii) Financial income includes revenue arising from interest on deposits, loan interest, foreign exchange differences, and other financial income. Interest on deposits and loans is accrued based on the outstanding balances and applicable interest rates.
- (iv) Investment income is recognized when the Company is entitled to receive the interest or dividend.

4.13. Financial Expenses

Financial expenses of the Company include borrowing costs, provisions for investments, and realized foreign exchange differences during the financial year. Borrowing costs consist of interest expenses payable during the year on the Company's short-term and long-term loans.

4.14. Taxation

Value Added Tax (VAT):

The VAT rate applicable to the Company's products is 10% .

Corporate Income Tax (CIT):

Current income tax is the tax calculated based on taxable income for the year at the applicable tax rate during the financial year. Taxable income differs from accounting profit due to adjustments for temporary differences between tax accounting and financial accounting, as well as adjustments for income or expenses that are non-taxable or non-deductible.

Other taxes: in accordance with the current regulations of Vietnam.

4.15. Offsetting of Financial Instruments

Initial Recognition

Financial Assets: At the initial recognition date, financial assets are recorded at cost plus any directly attributable transaction costs. The Company's financial assets include cash, cash equivalents, trade receivables, other receivables, deposits, financial investments, and derivative financial instruments.

Financial Liabilities: At the initial recognition date, financial liabilities are recorded at cost plus transaction costs that are directly attributable to the issuance of the financial liabilities. The Company's financial liabilities include trade payables, other payables, accrued expenses, finance lease liabilities, loans and derivative financial instruments.

Re-evaluation after initial recognition

Currently, there are no regulations on re-evaluation of financial instruments after initial recognition.

NOTES TO THE INTERIM SEPERATE FINANCIAL STATEMENTS (continue) Form No. B09A-DN
For the accounting period ending on March 31, 2025

4.16. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and presented on a net basis in the Balance Sheet only when and only if the Company:

- Has a legally enforceable right to offset the recognized amounts;
- Intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4.17. Related Parties

The disclosure of relationships with related parties and transactions between the Company and its related parties complies with Vietnamese Accounting Standard No. 26, *"Related Party Disclosures,"* issued and published under Decision No. 234/2003/QĐ-BTC dated December 30, 2003, by the Minister of Finance, and Circular No. 161/2007/TT-BTC, *"Guidelines for Implementing Sixteen (16) Accounting Standards Issued under Decision No. 149/2001/QĐ-BTC dated December 31, 2001, Decision No. 165/2002/QĐ-BTC dated December 31, 2002, and Decision No. 234/2003/QĐ-BTC dated December 30, 2003, by the Minister of Finance,"* issued on December 31, 2007. Specifically:

Related parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial and operating decisions. Cases considered to be related parties: Enterprises - including parent companies, subsidiaries, and associates - individuals that directly or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company. Associated parties, individuals who directly or indirectly own an interest in the voting power of the Company that gives them significant influence over the Company, key management personnel such as directors, officers of the Company, close members of the family of these individuals or these associates, or companies associated with these individuals are also considered related parties.

In considering each related party relationship, attention is paid to the substance of the relationship, not merely the legal form.

Transactions with related parties during the period are presented in Note 8.6 to the Interim Separate Financial Statements.

4.18. Segment Reporting

Business segments are distinguishable components engaged in the production or supply of goods and services and subject to risks and economic benefits that are different from those of other business segments.

Segment information is presented by business segments and geographical areas. The primary segment reporting is based on business segments, reflecting the Company's organizational structure, internal management, and internal financial reporting system.

Business Segments

The Company operates in the following main business segments: trading of paints, putty powder, and waterproof adhesive paints.

Geographical Areas

The Company's operations are primarily distributed across the Northern, Central, and Southern regions.

None of the events after the end of the financial year require adjustment, disclosure, or explanation in these financial statements.

8.4 Significant events arising during the fiscal year"

8.5 Significant events occurring during the financial period

8.6 . Financial instruments

The Company is exposed to the following risks when using financial instruments:

- Market Risk
- Credit risk
- Liquidity Risk

The Board of Directors has overall responsibility for the establishment and oversight of financial risk management. The Board of Directors establishes policies to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to risk limits. The risk management system and policies are reviewed periodically to reflect changes in market conditions and the Company's operations.

The Board of Directors reviews and agrees to apply management policies for the above risks as follows:

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. There are four types of market risk: interest rate risk, currency risk, commodity price risk and other price risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to market risk due to changes in interest rates relates primarily to the Company's cash, short-term deposits and borrowings.

Foreign exchange risk

Foreign exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to risks due to changes in foreign exchange rates that are directly related to the Company's business operations.

(ii) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or transaction contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities and from its financing activities, including bank deposits, loans and other financial instruments.

Accounts receivable

The Company regularly monitors its outstanding receivables from customers. For major customers, the Company reviews each customer's credit quality at the reporting date for deterioration. The Company seeks to maintain close control over outstanding receivables and has a credit control staff to minimize credit risk.

Bank deposit

The Company mainly maintains its deposits with well-known banks in Vietnam. Credit risk from deposits with banks is managed by the Company's treasury department in accordance with the Company's policy. The Company's maximum exposure to credit risk for items on the balance sheet at the end of the financial year is the carrying amount as disclosed in Note 5.1. The Company considers that the concentration of credit risk in respect of bank deposits is low.

(iii) **Liquidity Risk**

Liquidity risk is the risk that the Company will have difficulty in fulfilling its financial obligations due to lack of funds. The Company's liquidity risk arises mainly from the fact that financial assets and financial liabilities have different maturities.

The Company minimizes liquidity risk by maintaining a level of cash and cash equivalents and bank borrowings that the Board of Directors believes is adequate to finance the Company's operations and minimize the risk of fluctuations in cash flows.

The table below analyses non-derivative financial assets and financial liabilities into relevant maturity groups based on the remaining period from the balance sheet date to the contractual maturity date. The amounts presented in the table are undiscounted contractual cash flows. The presentation of information on non-derivative financial assets is necessary for an understanding of the Company's liquidity risk management as liquidity is managed on a net asset and liability basis
