**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

*(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)*

**II. Accounting period, accounting currency****1. Accounting period**

The Company's accounting period begins on 01/01 and ends on 31/12 every year.

**2. Accounting currency**

The currency used in accounting is Vietnam dong ("VND") accounted under the principle of historical cost, in accordance with Vietnamese Accounting Standards, Vietnamese Accounting regime for enterprises and the legal regulations related to the preparation and presentation of Consolidated Financial Statements.

**III. Applied accounting regime and standards****1. Applied accounting regime and standards**

The Company applies Vietnamese Accounting regime and Vietnamese Accounting Standards for enterprises promulgated under the Circular No. 200/2014/TT-BTC dated 22/12/2014 by Ministry of Finance guiding the Accounting Regime for Enterprises and Circular No. 53/2016/TT-BTC dated 21/03/2016 by Ministry of Finance regarding amendment to some articles of Circular No. 200/2014/TT-BTC; prepares and presents the Interim Consolidated Financial Statements in accordance with Circular No. 202/2014/TT-BTC dated 22/12/2014 by Ministry of Finance.

**2. Statement on the compliance to Accounting Standards and Accounting regime**

The Company's Consolidated Financial Statements are prepared and presented in accordance with Vietnamese Accounting Standards and current Vietnamese Accounting regime for enterprises and the laws and regulations in relation to the preparation and presentation of Consolidated Financial Statements.

**IV. Significant accounting policies****1. Basis for the consolidation of Financial Statements**

The Consolidated Financial Statements include Separate Financial Statements of the Company and Financial Statements of subsidiaries under the control of the Company prepared for the period ended on 31/03/2025. The control means the Company is able to control financial policies and operations of investee companies in order to get economic benefits from these companies.

Business performance of subsidiaries which have been acquired or disposed in the period is presented in the Consolidated Income Statement from acquisition date or as at disposal date of investment in subsidiaries.

Where necessary, the Financial Statements in subsidiaries are adjusted so accounting policies which are being applied in the Company and subsidiaries are the same. All transactions and balances between subsidiaries in the Company are canceled out upon consolidating the Financial Statements.

**Non - controlling interest**

Non - controlling interest in net assets of subsidiaries are determined as a separate item from the part of owner's equity of shareholders of the Company. Non- controlling interest (NCI) consists of value of non- controlling interest as at the initial consolidated date and changes in NCI in the total equity changes from the consolidated date. Loss amounts incurred at subsidiaries must be allocated corresponding to the ownership of non-controlling, in case of those loss amounts are greater than the ownership of non-controlling in net assets of subsidiaries.

**Business combination**

Business combinations are accounted for using the purchase method at purchase date, on which control is transferred to the Company. The control exists when the Company has governing power over financial policies

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)*

and activities of an entity for purpose of gaining economic benefits of such entity. On evaluating the control power, the Company has to consider potential voting right that can be realisable at current time.

In purchase method, assets, liabilities and contingent liabilities of the Acquiree will be measured at fair value on purchase date. Any premium between consideration and total fair value of the acquired assets will be recognized as goodwill. Any shortage between consideration and total fair value of the acquired assets will be recognized into the income statement in the period in which the acquisition incurs.

Non-controlling interest as at the first business combination will be measured on the proportion of non-controlling interest in the total fair value of assets, liabilities and contingent liabilities being recognized.

**Goodwill**

Goodwill incurs from acquisition of subsidiaries or associates and jointly-controlled business entities. Goodwill is measured at historical cost less accumulated allocation. Goodwill is separately presented as another asset on the Interim Consolidated Balance Sheet.

Historical cost of the incurred goodwill is the premium between the consideration and interest proportion in the Company in total fair value of assets, liabilities and contingent liabilities of subsidiaries, associates or joint venture entities as at investment date.

Goodwill is accounted for as an intangible asset, which is amortized by straight-line method on the estimated useful life of such goodwill from 05 to 10 years.

Goodwill that incurs from purchase of associates and jointly-controlled business entities will be added into book value of such associates and jointly-controlled business entities.

On selling subsidiaries, associates or joint venture entities, the carrying amount of goodwill which has not been amortized will be carried forward to profit/loss from the corresponding transfer.

**2. Financial Instruments*****Initial Recognition***

*Financial Assets:* At the date of initial recognition, financial assets are recorded at cost plus transaction costs which are directly attributable to the acquisition of the financial assets. The Company's financial assets include cash, cash equivalents, trade receivables, other receivables, deposits, financial investments and derivative financial instruments.

*Financial liabilities:* At the date of initial recognition, financial liabilities are recorded at cost plus transaction costs which are directly attributable to the issuance of such financial liabilities. The Company's financial liabilities include trade payables, other payables, accrued expenses, finance lease liabilities, loans and derivative financial instruments.

***Revaluation after Initial Recognition***

Currently, there is no regulation on revaluation of financial instruments after initial recognition.

**3. Principles of recognizing cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, demand deposits and other short-term, liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)***4. Accounting principles for financial investments***Held-to-maturity investments*

Held-to maturity investments consist of investment amounts that the Company intends and is able to hold to the maturity date. Held-to-maturity investments include: term deposits in banks.

Held-to maturity investments are recognized starting from the acquisition date and initial value of such held-to-maturity investments are determined under purchase price and expenses related to transactions of purchasing investment amounts. Interest proceeds from held-to-maturity investments after purchase date are recognized on the Interim Consolidated Income Statement on the basis of estimates. Interest before the Company holds the investments shall be deducted from historical cost at purchase time.

Held-to-maturity investments are determined as historical cost minus provisions for doubtful and bad debts. Provision for doubtful and bad debts of held-to-maturity investments is made in accordance with current accounting regulations.

*Investments in equity instruments of other entities*

Investments in equity instruments of other entities include investments in equity instruments but the Company does not have control, joint control or significant influence over the investee.

Investments in equity instruments of other entities are initially recorded at historical cost, including the purchase price or capital contribution plus costs directly related to the investment. Dividends and profits from periods before the investment is purchased are recorded as a reduction in the value of that investment. Dividends and profits from periods after the investment is purchased are recorded as revenue. Dividends received in shares are only tracked by the number of additional shares, not recording the value of shares received/recorded at par value (except for state-owned enterprises in accordance with current regulations of law).

Provision for losses on investments in equity instruments of other entities is made as follows:

+ For investments in listed shares or the fair value of the investment is reliably determined, the provision is made based on the market value of the shares.

+ For investments whose fair value cannot be determined at the reporting date, the provision is made based on the loss of the investee with the provision being equal to the difference between the actual capital contribution of the parties at the other entity and the actual equity multiplied by the Company's capital contribution ratio compared to the total actual capital contribution of the parties at the other entity.

**5. Accounting principles for receivables**

Receivables are amounts that can be recovered from customers or other entities. Receivables are presented at book value less provisions for doubtful debts.

Provisions for doubtful debts are made for receivables that are overdue for six months or more or for receivables that are unlikely to be paid by the debtor due to liquidation, bankruptcy or similar difficulties.

**6. Principles for recognizing inventories**

Inventories are recognized at the lower price between historical cost and net realizable value.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

*(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)*

The historical cost of inventories is determined as follows:

- Raw materials, goods, tools and equipment: include purchase costs and other directly related costs incurred to bring the inventories to their current location and condition.
- Finished products: include land use rights costs, direct costs and related general costs incurred during the investment process of constructing finished real estate products.
- Work-in-progress costs: only include costs incurred directly related to each project that the Company implements.

Net realizable value is determined as the estimated selling price of inventories during the normal business period minus the estimated costs to complete and necessary estimated costs to sell.

Value of inventories is determined by the Specific Identification Method and accounted for by perpetual method.

At the date ended the accounting period, the Company had no inventories that need to make provision.

**7. Principles for fixed asset recognition and depreciation****7.1. Principles for tangible fixed asset recognition and depreciation**

Tangible fixed assets are recognized at their historical cost, presented in the Consolidated Balance Sheet under the items of historical cost, accumulated depreciation and carrying amount.

Tangible fixed asset recognition and depreciation are implemented in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance guiding the enterprise accounting regime, Circular No. 45/2013/TT - BTC dated April 25, 2013 guiding the regime of management, use and depreciation of fixed assets, Circular No. 147/2016/TT-BTC dated October 13, 2016 on amending and supplementing a number of articles of Circular No. 45/2013/TT - BTC and Circular No. 28/2017/TT-BTC dated April 12, 2017 on amending and supplementing a number of articles of Circular No. 45/2013/TT - BTC and Circular No. 147/2016/TT-BTC of the Ministry of Finance.

The historical cost of procured tangible fixed assets includes their purchase price (excluding trade discount or other discount), taxes and directly related costs to bring such assets into the ready-for-use state.

The historical cost of fixed assets which are constructed by contractors includes value of completed and handover works, directly-related costs and stamp duty.

The historical cost of procured tangible fixed assets include actual price of tangible fixed assets which are self-constructed or self-made and their installation and commissioning expense.

The expenses incurred after the initial recognition of tangible fixed assets are recorded as the increases of historical cost of assets when these expenses are sure to increase economic benefits in the future. The incurred expenses which do not satisfy the above conditions are recognized into production and business operation expense in the year.

The Company applied straight-line depreciation method to tangible fixed assets. Tangible fixed assets are accounted and classified into groups by their nature and purpose of utilization in the Company's production and business operation, including:

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)*

Type of fixed assets	Depreciation duration <years>
Building and structures	05 – 47
Motor vehicles	06 - 09
Office equipment	02 - 05
Others	02 – 05

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the Consolidated Income Statement.

**7.2. Principles for intangible fixed asset recognition and amortization**

Intangible fixed assets are recognized at their historical cost, presented in the Interim Consolidated Balance Sheet under the items of historical cost, accumulated amortization and carrying amount.

Intangible fixed asset recognition and amortization shall comply with Vietnamese Accounting Standard No. 04 - Intangible Fixed Assets, Circular No. 200/2014/TT-BTC dated December 22<sup>nd</sup>, 2014 of the Ministry of Finance guiding the enterprise accounting regime, Circular No. 45/2013/TT - BTC dated April 25<sup>th</sup>, 2013 guiding the Management, Use and Depreciation Regime of Fixed Assets, Circular No. 147/2016/TT-BTC dated October 13<sup>th</sup>, 2016 on amending and supplementing a number of articles of Circular No. 45/2013/TT - BTC and Circular No. 28/2017/TT-BTC dated April 12<sup>nd</sup>, 2017 on amending and supplementing a number of articles of Circular No. 45/2013/TT - BTC and Circular No. 147/2016/TT-BTC of the Ministry of Finance.

The historical cost of acquired intangible fixed assets consists of their total purchase price to bring the assets to their state of ready-to-use. The costs arising after initial recognition of intangible fixed assets are recorded as production costs in the period excluding specific costs of a specific intangible asset, enabling an increase in the future economic benefits.

When an intangible fixed asset is sold or disposed, historical cost and accumulated depreciation are written off and gain or loss from disposal is recognized into income or expense in the period.

Intangible fixed asset of the Company includes: Land use right; Trademark, brand name; Patent and computer softwares.

***Computer software***

Costs in relation to computer software are not an integral part of the relevant capitalized hardware. Historical costs of computer softwares is the whole expenditure paid by the Company until the softwares are put into use. Computer softwares are amortized on straight line basis from 03 to 05 years.

***Trademark, brand name***

Historical cost of brand name and patent which was bought from a third party includes the purchase price, non-refundable purchase tax and registration fee. Copyright and patent are amortized on the straight-line basis from 03 to 05 years.

**8. Principles of investment property recognition and depreciation*****Principles for investment property recognition***

Investment properties of the Company is the land use right, right to building, a part of building or infrastructure under possession of the Company or under finance lease to be used to gain benefits from lease or appreciation. Investment properties are presented at historical cost less accumulated depreciation. Cost of an investment property means the amount of expenses paid or the fair value of other consideration given to acquire an investment property at the time of its acquisition or construction.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)*

Subsequent expenditure relating to an investment property that has already been recognized should be recorded into expenses, except when it is probable that future economic benefits will flow to the enterprise in excess of the originally assessed standard of performance of the existing investment property, then an increase in the cost of the investment property shall be recorded.

At the sale of investment properties, historical cost and accumulated depreciation is written off and gain/loss is recorded into income or expense in the period.

The transfer from owner-occupied property of inventory to investment property shall be made only when the owner finishes using that property and leasing it to other party for operation or upon completion of construction stage. Investment property shall be converted into owner-occupied property or inventory when the owner begins to use this property or held for sale purpose. The transfer of use purpose between investment property and owner-occupied property or inventory does not change the net book value of the transferred asset or the historical cost of the property at its transfer date.

***Principles for investment property depreciation***

Investment properties used for lease are depreciated on straight line basis within their estimated useful life. Depreciation years of investment properties are detailed as follows:

Type of fixed assets	Depreciation duration <years>
Land use rights	indefinite
Buildings	35 – 47

**9. Principles for recognizing construction in progress**

Construction in progress is the cost of construction of Green Hotel & Resort Project in Nha Trang, Sonasea Van Don Harbor City resort and tourism complex project and some projects which have not been completed at the cut-off date for the Interim Consolidated Financial Statements. Cost of construction in progress is recognized by actual expenses incurred when full and legal documents, invoices are available. Expenses shall include service fee and borrowing cost in relation and accordance with the Company's accounting policies.

According to the State's regulations on investment and construction management, depending on the management level, the settlement value of completed basic construction works must be approved by competent authorities. Therefore, the final value of basic construction works may change and depends on the settlement approved by competent authorities.

**10. Principles of recognition of business cooperation contract*****Business under jointly control***

The Company records business cooperation contracts in the Interim Consolidated Financial Statements under jointly control of business activities over the following items:

- Value of assets owned by the Company;
- Liabilities being born by the Company;
- Revenue shared from sales of goods or services rendered by such joint venture;
- Expenses incurred.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)***11. Principles for recognition and allocation of prepaid expenses**

Prepaid expenses consist of actual expenses incurred but related to the business performance of many accounting periods. Prepaid expenses include: tools, instruments issued for use awaiting for allocation; prepaid insurance cost, prepaid office lease and other expenses awaiting for allocation.

Tools, instruments: Tools and instruments which were exported for use and allocated into expenses on straight-line basis from 12 to 36 months.

Prepaid insurance cost: One-off insurance cost with high value shall be allocated into expenses on straight-line basis within 12 months.

Prepaid office rentals: One-off office rental with high value shall be allocated by actual lease term under agreements in the lease contract.

Purchase cost of secondary trade mark right includes purchase price, non-refundable sale tax and registration fee. Secondary trade mark right shall be amortized on straight line basis on purchase duration.

Selling expenses awaiting for allocation include the whole expenses paid by the Company for the purpose of sales of Condotel apartments to be completed in the future and allocated when revenue from sales of apartments incurs.

Other prepaid expenses are costs that are capitalized in the form of prepayments and are amortized in the Income Statement on a straight-line basis in accordance with the prevailing accounting regulations.

**12. Accounting principles for liabilities**

Liabilities are amounts payable to suppliers and other subjects. Liabilities comprise trade accounts payable and other payables. Liabilities are not recorded at lower amounts than payment obligation.

Classification of liabilities is made on the following principle:

- Trade accounts payable comprises liabilities with their commercial nature arising from purchasing goods, services, assets and the suppliers are independent from buyers.
- Other amounts payable comprise amounts payable with their non-commercial nature, not related to transactions of purchasing, selling and supplying goods, services.

Liabilities are monitored by details of each item and due date.

**13. Principles of recording loans and financial lease debts**

Loans and financial lease debts are recorded on the basis of receipts, bank documents, contracts and loan and financial lease contracts.

Loans and financial lease debts are monitored by each subject and term.

**14. Principles for recognition and capitalization of borrowing costs**

Borrowing costs consist of loan interest and other costs that incurs in direct connection with the borrowings.

Borrowing costs are recognized into operation and production costs in the period if arising, unless they are capitalized in accordance with Accounting Standard "Borrowing Costs". As a result, borrowing costs which directly relate to procurement, construction investment or production of properties that need a quite long period to be completed for putting into operation or business shall be plus in historical cost of property until such property would be put into use or business. The incomes arising from the temporary investment of loans are deducted from the historical cost of related assets. For a separate loan for the construction of fixed assets and investment property, borrowing cost is capitalized even if the construction period is less than 12 months.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)***15. Principles for recognizing accrued expense**

The Company's accrued expenses include payable interest expenses, brokerage fees, project cost provisions and other payable expenses, which are actual expenses that have arisen in the reporting period but have not been paid due to lack of invoices or insufficient accounting records and documents, recorded in the production and business expenses of the reporting period and payables that have not arisen due to lack of goods and services but are calculated in advance into the production and business expenses of this period to ensure that when they actually arise, they do not cause a sudden change in production and business expenses, which are reflected as provisions for payables. Interest expenses are provisioned in advance based on the Loan Contracts and each loan agreement. The Company only accrued the expenses for estimation of cost of goods sold for construction works/items that have been completed and determined as sold in the accounting period. Accrued expenses into cost of goods sold are the amounts stated in the total investment cost estimate, but there are not sufficient documents for acceptance. Accrued expenses shall be provided for respectively to cost norm calculated in the total investment cost estimate of the works/items determined as sold out.

Accrued expenses on production and business expenses in the period are calculated strictly with reasonable and reliable evidence on the expenses to be accrued in the period to ensure the accounting expenses payable to be accounted will match the actual costs incurred.

**16. Principles and methods of recording provisions payable**

The Company's provisions payable are provisions for construction warranty.

**17. Principles for recognizing unearned revenue**

Unearned revenue includes revenue received in advance such as: Amounts paid in advance by customers for one or more accounting periods in terms of CEO tower lease, land use charge of Sonasea Villas & Resort Project and other unearned revenue. Amounts paid in advance by customers are allocated and recorded into revenue for each period on straight line basis and actual lease term under agreements in each lease contract.

**18. Principles for recognizing owner's equity**

Capital investment of the Company's owners is recognized by shareholders' actual capital contribution.

Retained earnings are the profit amounts from enterprise's business operation after deducting CIT expense this year and the retroactive adjustments due to changes in accounting policies and the retroactive adjustment of material misstatements in the previous years.

Profit after corporate income tax is allocated to shareholders right after funds are made for under the Corporation Article of the Company as well as legal regulations and upon approval of the Annual General Meeting.

The distribution of profit among shareholders is considered by taking account for non-cash items included in the retained earnings that may have impact on the cash flow and payment ability of dividend such as revaluation gain over assets for capital contribution, gain from re-translation of cash items, financial instruments and other non-cash items.

Dividend is recognized as a payable upon approval by the Annual General Meeting of shareholders.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)***19. Principles and methods of recognizing revenue and other income**

Revenue of the Company includes revenue from goods sold, real estate invested and sold by the Company and revenue from services rendered.

Revenue from financing activities includes revenue from interest of bank deposits and from other financing activities.

***Sales revenue***

Revenue from selling goods is recognized upon simultaneously meeting the following five (5) conditions as follows:

- The Company has transferred the majority of risks and benefits associated with the right to own the products or goods to the buyer;
- The Company no longer holds the right to manage the goods as the goods owner, or the right to control the goods;
- Revenue is determined with relative certainty. In case the contract specifies that buyers have the right to return goods or products that were bought under specific terms, the revenue is only recognized when these specific terms no longer exist and the buyers have no right to return goods or products (except for the case that customers can return goods as exchange to other goods or services).
- The Company gained or will gain economic benefits from the sale transaction; and
- It is possible to determine the costs related to the goods sale transaction.

***Revenue from services rendered***

Revenue from a service transaction is recognized when the outcome of such transaction is determined reliably. In case such transaction of services rendered is related to many periods, the revenue is recognized in the period corresponding to the completed work item as at the date of Interim Consolidated Financial Statements for such period. Revenue from service provision is determined when it satisfies all the four (4) conditions below:

- Revenue is determined with relative certainty. In case the contract specifies that buyers have the right to return services that were bought under specific terms, the revenue is only recognized when these specific terms no longer exist and the buyers have no right to return services rendered;
- It is possible to obtain economic benefits from the service provision transaction;
- The work volume completed on the cut-off date of the Consolidated Financial Statements can be determined; and
- The costs incurred from the transaction and the costs of its completion can be determined.

***Revenue from sales of real estate***

Revenue from selling properties invested by the Company is recognized upon simultaneously meeting the following five (5) conditions as follows:

- Real estates were fully completed and the risks and benefits associated with the right to own the real estates were transferred to the buyer;
- The Company no longer holds the right to manage the properties as property owner, or the right to control the properties;
- Revenue is determined with relative certainty;
- The Company gained or will gain economic benefits from the property sale transaction;
- It is possible to determine the costs related to the property sale transaction.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)***(These notes are an integral part of and should be read in conjunction with the accompanying Consolidated Financial Statements)****Interest income***

Interest amounts are recognized on accrual basis, being determined on balances of deposits and actual interest rate in the period.

**20. Principles and methods of recognizing financial expenses**

Financial expense recognized in the Consolidated Income Statement is the total Financial expense incurred in the period, without offset with revenue from financing activities, including interest expense and loss from exchange rate difference.

**21. Other accounting principles and methods****Tax liabilities*****Value added tax (VAT)***

The Company declares and calculates VAT under the guidelines of current Taxation Law.

***Corporate income tax***

Corporate income tax presents the total amount of current tax payable and deferred tax.

Current tax payable is calculated on taxable profit in the period. Taxable income differs from net profit presented in the Income Statement because taxable income does not include assessable incomes or expenses or deductible one in other years (including losses carried forward, if any) and it further excludes items that are non-taxable or non-deductible.

The Company applies the corporate income tax rate of 20% on taxable profits. Particularly for social housing business, the Company is entitled to a preferential corporate income tax rate of 10%.

Deferred income tax is computed by the difference between book value and income tax base of assets or liabilities on the Financial Statements and recognized in the Interim Consolidated Financial Statements.

Deferred income tax payable is recorded for all the temporary differences while deferred tax asset is only recorded when it is certain to have sufficient assessable income in the future for deduct the differences between the carrying amount and the income tax base of items of assets or liabilities in the Interim Consolidated Financial Statements.

Deferred income tax is measured at estimated tax rate applicable for the year when assets are recovered or liabilities are paid. Deferred tax is recognized into the Interim Income Statement and only recorded into owners' equity when such tax is related to items straight recorded in owner's equity.

Deferred tax asset and liability which are payable will be set off when the Company has a legal right to set off the current deferred tax asset and current deferred tax liability and when deferred tax asset and liability related to the corporate income tax are managed by the same tax agency and the Company intends to pay the current corporate income tax on net value basis.

The corporate income tax of the Company is determined in conformity with current tax regulations. However, these regulations may change from time to time and the final determination of corporate income tax depending on the tax check results of the competent tax authorities.

***Other taxes***

Other taxes and fees are declared and paid to the local tax authorities in compliance with the current regulations of the State.
