70 Ly Tu Trong, Ward Ben Thanh, District 1

right to control policies and operations, usually expressed through holding more than 50% of the voting rights

Investments in Company's subsidiaries are reflected at cost, including purchase price and directly related costs to the investment (if any). In case of investment in non-monetary assets, the cost of investments is recorded at the fair value of the non-monetary assets at the time of occurrence.

Dividends and profits distributed for the period after the Date of investment are recognized in Financial Income at fair value on the Date of entitlement.

#### - Investment in Affiliated company

An investment is classified as an investment in an Affiliated company when the Company holds directly or indirectly from 20% to less than 50% of the voting rights of the investee without any other agreement.

Investments in Affiliated company are reflected at cost, including purchase price and directly related costs to the investment (if any). In case of investment in non-monetary assets, the cost of investments is recorded at the fair value of the non-monetary assets at the time of occurrence.

Dividends and profits distributed for the period after the initial investment date are recognized as Financial Income at fair value on the date the right to receive them is established.

#### - Other investments

Investments classified as other investments are those other than investments in Company's subsidiaries, investments in joint ventures, and investments in Affiliated company.

Other investments are reflected at cost, including purchase price and directly related costs to the investment (If any). In the case of investments in non-monetary assets, the cost of the investments is recognized at the fair value of the non-monetary assets at the time of occurrence

Dividends and profits distributed for the period after the initial investment date are recognized as Financial Income at fair value on the date the right to receive them is established.

#### Method of setting up provision for financial investment losses

At the time of preparing Financial Statements, for other investments that are not listed securities or registered for trading on the domestic securities market and are not freely traded securities on the market, a provision for losses on other investments is made when there is evidence of a decrease in value compared to the enterprise's investment value, with the level of provision appropriate to the level specified in Circular No. 48/2019/TT-BTC dated August 08, 2019 of the Ministry of Finance, but not exceeding the actual investment value being accounted for.

#### 3- Receivables

Principles for recognizing customer receivables and other receivables after offsetting with provisions made for doubtful debts

The principle of Provision for doubtful debts is made for debts that are overdue for payment or debts for which there is definite evidence that they will not be recovered. Increases or decreases in the balance of the Provision for doubtful debts account are recorded in business administration expenses on the income statement.

#### 4- Inventories

Principles for recognizing inventory

Inventory is determined based on Original cost/Historical cost/Acquisition cost. The Original cost/Historical cost/Acquisition cost of inventory includes the purchase cost and other directly related costs incurred to bring the inventory to its present location and condition.

The value of inventory is determined using the weighted average method and is accounted for using the perpetual inventory method.

Provision for Inventory Devaluation is the difference between the Original cost/Historical cost/Acquisition cost of inventory greater than the net realizable value of the inventory. The provision is made for obsolete, slow-moving, and defective inventory in accordance with the guidance in Circular 228.

70 Ly Tu Trong, Ward Ben Thanh, District 1

Increases or decreases in the Provision for Inventory Devaluation are recorded in the cost of goods sold on the income statement.

#### 5- Tangible fixed assets

Tangible fixed assets are presented at Original cost/Historical cost/Acquisition cost less Accumulated depreciation. The Original cost/Historical cost/Acquisition cost of Tangible fixed assets includes the purchase price and all costs directly related to bringing the asset to a ready-to-use condition. In the case of purchasing fixed assets with additional equipment and replacement parts, the equipment and replacement parts are identified and recorded separately at fair value and are deducted from the Original cost/Historical cost/Acquisition cost of the Tangible fixed assets.

The Original cost/Historical cost/Acquisition cost of Tangible fixed assets is depreciated using the straight-line method over the estimated useful life of the asset.

The estimated depreciation time for some asset groups is as follows:

- Buildings, structures: 05 50 years
- Machinery and equipment 03 15 years
- Transportation vehicles 06 -10 years
- Equipment and management tools 03 07 years

#### 6- Intangible assets

Intangible assets are presented at Original cost/Historical cost/Acquisition cost less Accumulated depreciation. The company's Intangible assets include computer software. Computer software that is not an integral component of hardware is recognized as Intangible assets and amortized over its useful life.

#### 7- Investment properties

Investment properties are presented at Original cost/Historical cost/Acquisition cost less Accumulated depreciation.

The Original cost/Historical cost/Acquisition cost of Investment properties is the total amount of cash or cash equivalents that the enterprise has to spend or the fair value of the amounts given in exchange to obtain Investment properties as of the Date of purchase or construction of those Investment properties. The Original cost/Historical cost/Acquisition cost of Investment properties includes directly related initial transaction costs.

Investment properties are depreciated using the straight-line method.

The estimated depreciation period for houses and structures is 49 years

#### 8- Short-term Prepaid expenses

Prepaid expenses are classified as short-term prepaid expenses and long-term prepaid expenses according to the original term and are mainly expenses related to the cost of tools and supplies, goodwill, etc. These amounts are allocated over the prepayment period of the expense or over the period during which economic benefits are expected to be generated.

The following types of expenses are recorded as prepaid expenses to be gradually allocated to business results:

- Tools and supplies are gradually allocated from 01 year to 03 years to business results;
- One-time fixed asset repair costs of significant value for which the enterprise does not accrue in advance are allocated from 01 year to 03 years;
- Goodwill arising when an enterprise is equitized and converted into a joint stock company is allocated over a period of 10 years.

#### 9- Payables

Payables are classified as payables to suppliers and other payables according to the principle: Payables to suppliers are commercial payables arising from transactions of buying and selling goods, services, and assets, and the seller is an independent unit from the buyer; The remaining payables are classified as other payables.

Liabilities are tracked according to the original term, the remaining term at the reporting time, by original currency, and by each entity.

Revenue from sales is determined at the fair value of the amounts received or to be received. In most cases, revenue is recognized when the majority of the risks and economic benefits associated with ownership of the goods are transferred to the buyer

#### Revenue from service

Revenue from service provision is recognized when the outcome of the transaction can be reliably estimated. When a service provision transaction involves multiple periods, revenue is recognized in the period based on the percentage of work completed as of the Date of the balance sheet for that period.

#### Investment income

Interest from investments is recognized when the company has the right to receive the interest.

#### 12- Revenue deductions

Revenue deductions are goods sold that have been returned.

Revenue deductions arising in the same period as product, goods, or service consumption are adjusted to decrease revenue of the period in which they occur; Revenue deductions arising in a subsequent period but before the issuance of Financial Statements are adjusted to decrease revenue of the reporting period; Revenue deductions arising in a subsequent period and after the issuance of Financial Statements are adjusted to decrease revenue of the period in which the deduction occurs.

#### 13- Cost of goods sold

Cost of goods sold and service provision is the total cost of goods and services incurred during the period, in accordance with the matching principle with revenue.

#### 14- Selling expenses and administrative expenses

Selling expenses reflect the actual expenses incurred in the process of selling goods and providing services, including product advertising costs, sales commissions, etc.

Enterprise administrative expenses reflect the general administrative expenses of the enterprise, including expenses for salaries of enterprise management department employees; social insurance, health insurance, trade union fees, unemployment insurance of enterprise management employees; expenses for office supplies, tools, Depreciation of Fixed Assets used for enterprise management; land rent, business license tax, provision for doubtful debts; outsourced services (electricity, water, Telephone...); other cash expenses.

#### 15- Tax

Corporate income tax

Current Corporate Income Tax Expense is determined based on taxable income and the Corporate Income Tax rate in the current year is 20%
