In Q1/2025, the Company recorded a loss after corporate income tax. The main reason is as follows:

"According to the business cycle of the Parent Company and its subsidiaries, as well as the general demand in the information technology sector, the first quarter is usually the period when the Company focuses on procurement of goods and contract execution. As a result, projects have not yet been accepted by customers for invoicing and revenue recognition, leading to a loss after corporate income tax typically arising in the first quarter."

This is the explanation regarding the loss after corporate income tax item on the consolidated financial statements for Q1/2025.
