SONG DA CORPORATION – JSC SONG DA CONSULTING JOINT STOCK COMPANY

No.:/88/SDCC-TCKT

Reg.: Explanation of business results on the Consolidated Financial Statements for Quarter 2 2025

SOCIALIST REPUBLIC OF VIETNAM Independence - Freedom - Happiness

Hanoi, July 17th, 2025

To:

State Securities Commission Hanoi Stock Exchange

Pursuant to the Circular No. 96/2020/TT-BCTC dated November 16th, 2020; Circular No. 168/2024/TT-BTC dated September 18th, 2024 of the Ministry of Finance guiding the information disclosure on the stock market, Song Da Consulting Joint Stock Company would like to explain the fluctuations in production and business results for Quarter 1 2025 compared to those for Quarter 1 2024 as follows:

In Quarter 2 2025, we recorded the maintenance of normal production and business activities, but a deincrease in profit after corporate income tax of VND 337 million, equivalent to 47% compared to the Quarter 1 2024, mainly due to:

- + Revenue from sales of merchandises and services rendered in the second quarter of 2025 decreased by VND 5,939 billion compared to the second quarter of 2024, while gross profit in the second quarter of 2025 decreased by VND 311 million compared to the second quarter of 2024.
- + General and administration expenses in the second quarter of 2025 increased by VND 128 million compared to the second quarter of 2024. The main reason is that in the second quarter of 2024, the Holding Company was notified by the tax authority to reduce land rent for the period 2021-2023 by VND 272 million, reducing General and administration expenses in the second quarter of 2024 by VND 272 million

The above reason led to a deincrease in the Company's profit after corporate income tax in Quarter 2 2025 by VND 337 million, equivalent to a increase of 47% compared to the Quarter 2 2024.

Full financial statements are available at the website address: www.sdcc.com .vn We hereby undertake that the information above is true and we will be fully responsible before the law.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Ouarter 2 2025

1. Operational characteristics of enterprise

- 1. Form of capital ownership: Joint stock company
- 2. Business field: Construction and installation consulting services

3. Business lines

- Consulting on design of construction works
- Survey of topography and geology of construction works.
- Testing to determine physical and mechanical properties of soil, foundation and construction materials

4. Business structure

- Total number of subsidiaries: 01 subsidiary
- + Number of consolidated subsidiaries: 01
- List of consolidated subsidiaries: Song Da Urban and Rural Development Joint Stock Company
 - + Address: Lai Xa Hamlet, Thanh Tân, Hai Phong City.
 - + Parent company's interest ratio: 73.48%
 - + Parent Company's voting rights account for 73.48%

II. Accounting period, currency used in accounting

1. Annual accounting period

The Company's fiscal year begins on January 1st and ends on December 31st every year.

2. Currency used in accounting:

The currency used in accounting is Vietnamese dong (VND).

III. Applicable accounting standards and system

1. Accounting system

The Company applies the Vietnamese Enterprise Accounting System issued under the Circular No. 200/2014/TT-BTC providing guidance on the Enterprise Accounting Regime replacing the Decision No. 15/2006/QD-BTC dated March 20th, 2006 of the Minister of Finance and the Circular No. 244/209/TT-BTC dated December 31st, 2009 of the Ministry of Finance.

2. Statement on on compliance with Accounting standards and Accounting system

The Board of Directors ensures that it has complied with requirements of the Vietnamese accounting standards and the Vietnamese Enterprise Accounting System issued under the Circular No. 200/2014/TT-BTC providing guidance on the Enterprise Accounting Regime replacing the Decision No. 15/2006/QD-

BTC dated March 20th, 2006 of the Minister of Finance and the Circular No. 244/209/TT-BTC dated December 31st, 2009 of the Ministry of Finance as well as circulars guiding the implementation of accounting standards and systems of the Ministry of Finance in preparing the Financial Statements.

IV. Applicable accounting policies

The significant accounting policies have been applied by the Company in preparing the consolidated financial statements.

1. Accounting estimates

The preparation of consolidated financial statements in accordance with accounting standards, Vietnamese enterprise accounting system and legal regulations related to the preparation and presentation of separate financial statements requires the Board of Management to make estimates and assumptions that affect reported figures on liabilities, assets and the disclosure of contingent liabilities and assets at the date of preparation of consolidated financial statements as well as reported figures on revenues and expenses throughout the fiscal year. Although the accounting estimates are made by the knowledge of the Board of Management, actual arising numbers may differ from the estimates and assumptions.

2. Basis for consolidation of financial statements

The consolidated financial statements include the financial statements of the Parent Company and the financial statements of the companies controlled by the Company (subsidiaries) prepared as of the end of the fiscal year. The control is achieved when the Company is able to control the financial and operating policies of the investee in order to gain any benefits from the activities of these companies.

The business results of subsidiaries acquired or sold during the year are presented in the Consolidated Statement of Income from the date of acquisition or up to the date of sale of investment in that subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries in order to bring their accounting policies in line with those of the Company and its subsidiaries.

All intercompany transactions and balances are eliminated during the preparation of the consolidated financial statements.

Non-controlling interests consist of value of non-controlling interests at the date of the original business combination and non-controlling interests' share of changes in equity since the date of the business combination. Losses arising at a subsidiary must be allocated in proportion to the non-controlling shareholders' share, even if such losses are greater than the non-controlling shareholders' share of the subsidiary's net assets.

3. Business combination

The subsidiary's assets, liabilities and contingent liabilities are measured at fair value at the date of acquisition of the subsidiary. Any positive difference between the purchase price and the fair value of the assets acquired is

recognized as goodwill. Any negative difference between the purchase price and the fair value of the assets acquired is recognized in the income statement for the period in which the subsidiary is acquired.

The non-controlling interest at the date of business combination is initially determined on the basis of the non-controlling interest's proportion over the fair value of the assets, liabilities and contingent liabilities recognized.

4. Cash and cash equivalents

Cash and cash equivalents include cash on hand, bank deposits, cash in transit and short-term investments with maturity not exceeding 3 months from the date of purchase, easily convertible to known amounts of cash and subject to an insignificant risk of change in value.

5. Principles of accounting for financial investments

Investments in subsidiaries; joint ventures and associated companies: are recognized at cost starting from the date of investment contribution, or the date of purchase of stocks or bonds.

Provisions for investments in other economic organizations are made when these economic organizations suffer losses (except for planned losses determined in the business plan before investment) according to the provision amount equal to the difference between the actual capital contributions of the parties in the economic organization and the actual equity multiplied (x) by the Company's capital contribution ratio compared to the total actual capital contributions of the parties in the economic organization.

Increases and decreases in the balance of provision for financial investments are recognized in financial expenses during the period.

6. Principles of accounting for accounts receivable

Trade receivables and other accounts receivable are recognized according to invoices and documents.

The provision for doubtful debts is made for each doubtful debt based on the age of the debt or the expected loss that may occur, specifically as follows:

- For overdue accounts receivable:
 - 30% of receivables overdue from more than 6 months to less than 1 year.
 - 50% of receivables overdue from 1 year to less than 2 years.
 - 70% of receivables overdue from 2 years to less than 3 years.
 - 100% of receivables overdue from 3 years or more.
- For receivables that are not overdue but are unlikely to be recovered: making provision based on the expected loss.

Increases and decreases in the balance of provision for doubtful debts is recognized in the general and administrative expenses of the period.

7. Principle of inventory recognition:

Inventories are stated at historical cost (-) provision for impairment. The historical costs include purchase price, processing expenses and other directly related costs to bring the inventories to the current positions and conditions.

8. Principle of recognition and depreciation of fixed assets, financial leased assets or real estate investment:

- Tangible fixed assets are initially recorded at the historical cost, accounted for according to three criteria: cost, depreciation and residual value during use. The historical cost of an asset is determined as the total cost spent by the unit to acquire that asset up to the time the asset is put into a state of readiness for use.

When the tangible fixed assets are sold or liquidated, its historical cost and accumulated depreciation are written off and any arising gain and loss from liquidation are recognized in income or expenses during the year.

The tangible fixed assets are depreciated by using the straight-line method over its estimated useful lives. The useful lives of tangible fixed assets are as follows:

| Type of fixed assets | Year |
|--|-------|
| Houses and structures | 10-25 |
| Machinery and equipment | 5-10 |
| Means of transportation and transmission | 6-10 |
| Management equipment, tools | 3-5 |

- Intangible fixed assets are stated at cost less accumulated depreciation. The company's intangible fixed assets include:

Accounting software: The cost of computer software that is not an integral part of the related hardware is capitalized. The historical cost of computer software is the total cost incurred by the company up to the date the software is put into use. The computer software is amortized on a straight-line basis over 3 years.

9. Accounting principles of prepaid expenses:

Prepaid expenses allocated to investment activities in construction, renovation and upgrading of fixed assets during the period are capitalized into the fixed assets being invested and upgraded.

10. Principles of accrued expenses recognition

The accrued expenses are recognized on the basis of reasonable estimates of amounts payable for used goods and services.

11. Principles of recognition of owner's equity:

Owner's investment capital

Owner's investment capital is recognized at actual amount of contributed capital of the owner.

Treasury shares

When a company repurchases shares issued, the consideration paid, including transaction-related expenses, which are recognized as treasury shares, is reflected as a deduction from equity. Upon reissue, the difference between the

reissue price and the book value of treasury shares is recorded in capital surplus.

12. Principles and methods of revenue recognition:

Revenue from provision of services:

When the outcome of a contract can be reliably estimated, with respect to construction contracts where the contractor is paid for work performed, revenue and costs related to the contract are recognized in proportion to the work completed, confirmed by the customer and reflected in the issued invoices.

Increases and decreases in construction volume, compensation and other revenues are only recorded in revenue when agreement has been reached with customers.

13. Principles and methods of recognition of current corporate income tax expense

Current income tax is any tax amount calculated based on taxable income. The difference between taxable income and accounting profit is caused by the adjustment of temporary differences between tax and accounting treatment, non-deductible expenses as well as adjustment of non-taxable income and losses carried forward.
