PETROVIETNAM FERTILIZER AND CHEMICALS CORPORATION SOUTH WEST PETROVIETNAM FERTILIZER AND CHEMICALS JSC

Address: 151/18 Tran Hoang Na, Tan An Ward, Can Tho City

Form B09 - DN (Issued under Circular No. 200/2014/TT-BTC dated December 22, 2024 of the Ministry of Finance)

NOTES TO THE FINANCIAL STATEMENTS

Ouarter 2, 2025

(Represented in Vietnamese Dong (VND), unless otherwise noted in another currency)

I. CHARACTERISTICS OF ENTERPRISES' OPERATION

1. Form of capital ownership

Southwest Petrovietnam Fertilizer and Chemicals Joint Stock Company was established in accordance with the Business Registration Certificate No. 1800722461 dated December 31st, 2010 issued by the Department of Planning and Investment of Can Tho City & Business Registration Certificate changed for the 13th time on January 14, 2025.

The Company's charter capital is 170,000,000,000 VND. Of which:

- PetroVietnam Fertilizer and Chemicals Corporation Joint Stock Company owns 75% of capital.
- Other investors hold 25% of the capital.

The company is headquartered at 151/18 Tran Hoang Na Street, Tan An Ward, Can Tho City, Vietnam.

2. Business field

Trade and services.

3. Opperating industry

According to the Business Registration Certificate, the Company's principal business lines are:

- Business activities related to the import and export of fertilizers;
- Production of fertilizers and nitrogen compounds;
- Wholesale of agricultural and forestry raw materials (except for wood, bamboo, and rattan) and live animals;
- Road freight transportation;
- Cargo handling services;
- Agency, brokerage, and auction services;
- Inland waterway cargo transportation;
- Other supporting services related to transportation (excluding export/import freight forwarding services or customs brokerage);
- Warehousing and storage services;
- Advertising;
- Real estate business, including land use rights that are owned, leased, or rented;
- Organizing trade promotion and introduction services;
- Technical inspection and analysis;
- Wholesale of agricultural materials, seeds, , and various seedlings aquatic products; technical services in the production and business of fertilizers and related chemicals; import and export of fertilizers, chemicals, and agricultural products, including agricultural, forestry, and aquatic products.

4. Normal production and business cycle

The Company's normal production and business cycle is carried out for a time period of 12 months or less.

II. ACCOUNTING PERIOD, CURRENCY USED IN ACCOUNTING

1. Annual accounting period

The annual accounting period begins on January 1st and ends on December 31st.

2. Currency used in accounting

The currency used in accounting is Vietnamese Dong (VND).

III. ACCOUNTING STANDARDS AND REGIMES APPLIED

1. Applicable accounting regime

The Company applies the Enterprise Accounting Regime issued under Circular 200/2014/TT-BTC dated December 22nd, 2014 of the Ministry of Finance.

2. Statement on compliance with Accounting Standards and Accounting Regime

Financial statements are prepared and presented in accordance with Vietnamese Accounting Standards, Enterprise Accounting Regime and legal regulations related to the preparation and presentation of financial statements.

IV. ACCOUNTING POLICIES APPLIED

The significant accounting policies, which have been adopted by the Company in the preparation of these financial statements, are as follows:

1. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2. Principles of accounting for receivables

Receivables are classified as trade receivables, internal receivables, and other receivables according to the following principles:

- a) Receivable from customers include commercial receivables arising from purchase and sale transactions;
- b) Internal receivables include receivables between the superior unit and subordinate units without legal entity status and dependent accounting:
- c) Other receivables include non-commercial receivables not related to purchase and sale transactions;

Quarter 2, 2025

(Represented in Vietnamese Dong (VND), unless otherwise noted in another currency)

Receivables are tracked in detail by subject, by collection period and by each receivable content.

Bad debts or debts that are likely to be irrecoverable are provisioned for bad debts in accordance with current regulations of the Ministry of Finance.

3. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises purchase price and where applicable, any directly attributable costs that have been incurred in bringing the inventories to their present location and condition. Inventories are recorded under the perpetual method. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

4. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The original cost of a fixed asset acquired through purchase includes the purchase price and all other costs directly related to putting the asset into a state of readiness for use. For fixed assets acquired through capital construction investment under the method of contracting or self-construction and production, the original cost is the final settlement price of the construction project according to the current regulations on investment and construction management, other directly related costs and registration fees (if any).

In case the project has been completed and put into use but the final settlement has not been approved, the original cost of fixed assets is recorded at the provisional price based on the actual cost incurred to acquire the fixed assets. The provisional price will be adjusted according to the approved final settlement price.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

Buildings and structures	Sô năm	
Machinery and equipment	6 -	12
Motor vehicles		6
Office equipment		6
equipment	3.	. 7

Gains and losses arising from the liquidation and sale of assets are the difference between the net income from the liquidation of assets and the remaining value and liquidation costs of the assets and are recorded in the income statement.

5. Intangible fixed assets and depreciation

Intangible fixed assets reflect the value of indefinite land use rights, software copyrights and computer software presented at original cost less accumulated amortization. Specifically as follows:

- The value of the indefinite land use right is the value of the land use right of Dong Thap warehouse and the Office Building at 151/18 Tran Hoang Na Street, Tan An Ward, Can Tho City. The Company does not depreciate these land use rights.
- The value of software copyright and computer software is amortized by the straight-line method. The depreciation period is from 3 years to 5 years.

Prepaid expenses

Prepaid expenses reflect actual costs that have been incurred but are related to the results of production and business activities of many accounting periods and are gradually allocated to production and business costs using the straight-line method.

7. Principles of accounting for liabilities

Payables are classified as trade payables, internal payables, and other payables according to the following principles:

- a) Payables to suppliers include commercial payables arising from transactions of purchasing goods, services, assets and the seller (an entity independent of the buyer, including payables between the parent company and subsidiaries, joint ventures, and associates);
- b) Internal payables include payables between the superior unit and subordinate units without legal entity status and dependent accounting;
- c) Other payables include non-commercial payables not related to purchase, sale or service provision transactions;
 Payables are tracked in detail by subject, payment term, remaining term and by each payable item.

Principle of recording payable expenses

Accrued expenses are recorded based on reasonable and reliable estimates of the amounts payable for goods and services used during the period.

9. Equity

Owner's equity is recorded at the actual amount contributed by the owner. Capital surplus is recorded at the difference between the actual issued price and the par value of the shares. Treasury shares are recorded at the actual purchase price and are presented on the Balance Sheet as a reduction in owner's equity.

10. Revenue recognition

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

Ouarter 2, 2025

(Represented in Vietnamese Dong (VND), unless otherwise noted in another currency)

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

11. Revenue deductions

Sales deductions include trade discounts.

Sales deductions incurred in the same year of the related revenue from sales of products, goods and rendering of services are recorded as a deduction from the revenue of that year. In case that sales deductions for sales of products, goods or rendering of services sold in the year incurred after the balance sheet date but before the issuance of the financial statements, the Company recorded as revenue deductions for the year.

12. Principles of accounting for cost of goods sold

Cost of goods sold reflects the capital value of products, goods, services, investment real estate; production cost of construction products (for construction enterprises) sold during the period and expenses related to investment real estate business activities such as: Depreciation costs; repair costs; operating costs of investment real estate leasing (in case of small occurrence); costs of transfer and liquidation of investment real estate, etc.

The provision for inventory price reduction is included in the cost of goods sold based on the quantity of inventory and the difference between the net realizable value being less than the original price of inventory. When determining the volume of inventory with price reduction requiring provision, the volume of inventory for which a sales contract has been signed (with a net realizable value not lower than the book value) but has not yet been transferred to customers must be excluded if there is solid evidence that the customer will not abandon the contract. The cost price and the revenue generated by it must be recorded simultaneously according to the matching principle. However, in some cases, the matching principle may conflict with the prudence principle, it is necessary to base on the nature and Accounting Standards to reflect the transaction honestly and reasonably.

13. Principles of accounting for borrowing costs

Borrowing costs are recognised in the income statement in the year when incurred.

14. Principles of accounting for sales costs and business management costs

Selling expenses reflect actual costs incurred in the process of selling products, goods, and providing services, including costs of offering, introducing products, advertising products, sales commissions, product and goods warranty costs (except construction activities), preservation, packaging, transportation costs, etc.

Business management costs reflect the general management costs of the enterprise, including costs for salaries of employees in the business management department (salaries, wages, allowances, etc.); social insurance, health insurance, union fees, unemployment insurance for business management employees; costs of office materials, labor tools, depreciation of fixed assets used for business management; land rent, business license tax; provision for bad debts; outsourced services (electricity, water, telephone, fax, property insurance, fire and explosion insurance, etc.); other cash expenses (reception, customer conferences, etc.).

Sales expenses and business management expenses are not considered expenses for calculating corporate income tax according to the provisions of the current Tax Law but have full invoices and vouchers and have been accounted for correctly according to the Accounting Regime. They cannot be recorded as a reduction in accounting expenses but can only be adjusted in the corporate income tax settlement to increase the amount of corporate income tax payable.

15. Current corporate income tax, deferred corporate income tax expense

Current corporate income tax expense is determined on the basis of taxable income and tax rate in the current year.

Deferred corporate income tax expense is determined on the basis of deductible temporary differences, taxable temporary differences and corporate income tax rates.

V. ADDITIONAL INFORMATION FOR ITEMS PRESENTED IN THE BALANCE SHEET

1. Cash and cash equivalents

VII. ADDITIONAL INFORMATION FOR ITEMS PRESENTED IN THE CASH FLOW STATEMENT

Non-cash transactions affecting the future cash flow statement and cash held by the enterprise but not used: None.

VIII. OTHER INFORMATION

- Contingent liabilities, commitments and other financial information: Not affected.
- 2. Events occurring after the balance sheet date: None.

Quarter 2, 2025

(Represented in Vietnamese Dong (VND), unless otherwise noted in another currency)

3.	Information on transactions and balances with related parties in the second	quarter o	f 2025 d	of the Company is as follows:

Giao dịch phát sinh	Amounts
Vietnam National Industry - Energy Group Trademark usage fees 2025 of the Group	126.790.986
Petrovietnam Fertilizer and Chemicals Corporation	
Purchase goods and services	873.086.440.374
Receive trade discounts	25.906.625.225
Sell goods	32.506.180.000
Provide services	6.028.466.379
Closing balance Short-term advances to suppliers	Amounts
Vietnam National Industry - Energy Group	86.866.453
Petrovietnam Fertilizer and Chemicals Corporation	50.454.122.500

Comparison information:

The Company's profit after corporate income tax in the second quarter of 2025 was VND 11.4 billion and a loss of VND 0.77 billion in the same period last year. The business results in the second quarter of 2025 were higher than the same period last year mainly due to an increase in gross profit from sales and service provision.

- Information on continuous operation: No impact 5.
- Other information: No effect.
