### **EXECUTIVE BOARD REPORT**

### 3. Business Performance Evaluation

The Company's operating results for the three-month accounting period ended June 30, 2025, and its financial position for the same period are detailed in the attached financial statements.

### 4. Events Occurring After the End of the Accounting Period

There were no significant events occurring after the end of the accounting period that require adjustments or disclosures in the notes to the financial statements.

### 5. Declaration of the Board of Directors' Responsibility for the Financial Statements

The Board of Directors is responsible for preparing the financial statements to provide a true and fair view of the financial position, income, and cash flows of the Company for the accounting period. In preparing these financial statements, the Board of Directors has:

- Selected suitable accounting policies and then apply them consistently.
- Made judgments and estimates that are reasonable and prudent.
- Clearly stated whether the accounting standards applied to the Company have been followed, and whether material misstatements are presented and explained in the Financial Statements.
- Prepared the financial statements on the going concern basis unless it is inappropriate to presume that the Corporation will continue its business.
- Designed, executed and maintained effective internal control system to reduce material misstatements due to frauds and errors in the preparation of Financial statements.

The Board of Directors is responsible for providing assurance that accounting records are kept to reflect the Company's financial position and operational performance in true and fair view at any time and that the same complies with the applicable accounting system. The Board is also responsible for safeguarding the Company's assets and has therefore implemented appropriate measures to prevent and detect fraud and other irregularities.

The Board of Directors affirms compliance with the above requirements in the preparation of the financial statements.

### 6. Approval of the Financial Statements

The Board of Directors approves the attached financial statements. These financial statements present a true and fair view of the financial position of the Company as of June 30, 2025, as well as its income and cash flows for the accounting period ended on that date, in accordance with applicable accounting standards, the Vietnamese Corporate Accounting System, and relevant legal regulations on the preparation and presentation of financial statements.

For the Board of Directors

Do Hoang Phuc

000182456

### NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the second quarter ended Ended June 30, 2025

Form No. B09a-DN

The accounting currency used is Vietnamese Dong (VND) as most transactions are conducted in this currency.

### 3. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

### 3.1 Applicable Accounting Standards and Policies

The Company applies the Corporate Accounting System issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Minister of Finance, providing guidelines on corporate accounting, along with related circular amendments.

### 3.2 Declaration of Compliance with Accounting Standards and Policies

The Board of Directors ensures compliance with the requirements of the accounting standards and the Vietnamese Corporate Accounting System issued under Circular No. 200/2014/TT-BTC dated 22 December 2014, as well as other relevant guidelines issued by the Ministry of Finance in preparing the financial statements.

### 4. APPLICABLE ACCOUNTING POLICIES has a liberary and the state of the

### 4.1 Basis for Preparing the Financial Statements

The financial statements are prepared on an accrual basis (excluding cash flow-related information).

### 4.2 Foreign Currency Transactions

Transactions denominated in foreign currencies are translated into Vietnamese Dong at the exchange rate on the transaction date. Balances of monetary items in foreign currencies at the end of the fiscal year are retranslated at the exchange rates on that date.

Exchange differences arising from foreign currency transactions during the year are recognized in financial income or financial expenses. Exchange differences from the revaluation of monetary items denominated in foreign currencies at the end of the fiscal year, after offsetting any gains or losses, are also recognized in financial income or financial expenses.

### 4.3 Cash and Cash Equivalents

Cash includes cash on hand, demand deposits at banks, and cash in transit. Cash equivalents are short-term investments with a recovery or maturity period not exceeding three months, which are readily convertible into a known amount of cash and are subject to an insignificant risk of changes in

### 4.4 Financial Investments

### **Investments Held to Maturity**

is considerable and

An investment is classified as held to maturity when the Company has the intention and ability to hold it until maturity. Held-to-maturity investments include term deposits (including various forms of treasury bills and promissory notes), bonds, redeemable preference shares with a mandatory repurchase date in the future, loans held to maturity for the purpose of earning periodic interest, and other held-to-maturity investments.

Held-to-maturity investments are initially recognized at cost, which includes the purchase price and directly attributable transaction costs. After initial recognition, these investments are measured at their recoverable amount. Interest income from held-to-maturity investments after the purchase date is recognized in the income statement on an accrual basis. Any interest earned prior to the Company's acquisition is deducted from the investment's initial cost at the time of purchase.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the second quarter ended Ended June 30, 2025

Form No. B09a-DN

If there is objective evidence indicating that part or all of an investment may not be recoverable and the loss can be reliably measured, the impairment loss is recognized as a financial expense in the year and directly reduces the value of the investment.

### 4.5 Receivables

Receivables are presented at their carrying value, net of allowance for doubtful debts. Customer receivables, prepayment to suppliers, intra-company receivables, and other receivables at the reporting date are classified as follows:

- Those with a recovery or payment period of less than 1 year (or within an operating cycle) are classified as Short-term Assets.
- Those with a recovery or payment period of more than 1 year (or beyond an operating cycle) are classified as Long-term Assets.

### Allowance for Doubtful Debts

The allowance for doubtful debts represents the estimated value of receivables that may not be collectible from customers at the time of preparing the financial statements.

The allowance for doubtful debts is established in accordance with the provisions of Circular No. 48/2019/TT-BTC dated 8 August 2019, which provides guidelines for provisioning and using allowances for inventory devaluation, financial investment losses, doubtful debts, and warranty obligations for products, goods, and construction projects in enterprises. Allowances for doubtful debts are made for receivables that are overdue by six months or more, or for receivables from debtors who are unlikely to pay due to liquidation, bankruptcy, or similar financial difficulties.

Increases or decreases in the balance of allowances for doubtful debts at the end of the fiscal year are recognized as administrative expenses.

### 4.6 Inventories

Inventories are valued at cost. If the net realizable value is lower than the cost, inventories are stated at net realizable value. Inventory cost includes direct material costs, direct labor costs, and manufacturing overheads incurred to bring the inventories to their current location and condition. Net realizable value is determined as the estimated selling price in the normal course of business, less the estimated costs to complete and the marketing, selling, and distribution costs incurred.

Net realizable value is the estimated selling price of inventories during the normal production and business cycle, less the estimated costs to complete and the estimated costs necessary to make the sale.

Inventory values are calculated using the weighted average method and accounted for under the perpetual inventory system.

An allowance for inventory impairment is made for each inventory item whose cost exceeds its net realizable value. For unfinished services, the allowance is determined for each type of service with a distinct price. Increases or decreases in the balance of allowances for inventory impairment at the end of the fiscal year are recognized in the cost of goods sold.

### 4.7 Prepaid Expenses

Short-term prepaid expenses are costs allocated within 12 months, including operating expenses awaiting allocation corresponding to revenue in 2019.

### NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the second guarter ended Ended June 30, 2025

Form No. B09a-DN

Long-term prepaid expenses are actual costs incurred that relate to the results of business operations over multiple accounting periods. The Company's prepaid expenses include the following:

Tools and supplies

Tools and supplies put into use are appreciated to the cost on a straight-line basis with the maximum period of 03 years.

### Industrial land rental costs

The cost of land rental in Nam Tan Uyen Industrial Park is allocated over the rental period of 518 months (approximately 43 years).

Other prepaid expenses

Other prepaid expenses include asset repair costs, insurance costs, and other expenses allocated over a period not exceeding 3 years.

# 4.8 Tangible Fixed Assets

Tangible fixed assets are presented at cost less accumulated depreciation. The cost of tangible fixed assets includes all expenses incurred by the Company to acquire the assets up to the point they are ready for use. Subsequent expenditures are capitalized only if they are expected to increase the future economic benefits derived from the asset. Expenditures that do not meet these criteria are recognized as expenses in the period they are incurred.

When a tangible fixed asset is sold or disposed of, its cost and accumulated depreciation are derecognized, and any resulting gain or loss is recognized in the income statement for the period.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The estimated useful lives for each type of tangible fixed asset are as follows:

Type of fixed	assets				<u>Years</u>
Buildings, str					10-25
Machinery an	d equip	ment			10-20
Means of	transp	ortation	and	COSTS II	an, W. U. C. Sie,
transmitters	Main .				10
Instrument	and	tools	for		
management					03-10
Perennial pla					20

### 4.9 Construction in Progress

Construction in progress reflects the direct costs (including relevant borrowing costs in accordance with the Company's accounting policy) related to assets under construction, machinery, and equipment being installed for production, leasing, or management purposes, as well as costs related to repairs of fixed assets currently being undertaken. These assets are recorded at cost and are not depreciated.

# 4.10 Payables and Accrued Expenses

Payables to suppliers, intra-company payables, other payables, and loans at the reporting date are classified as follows:

- Short-term liabilities: Payable within 1 year or within an operating cycle

ponition of health in the function, the single of the set plantage of

- Long-term liabilities: Payable beyond 1 year or an operating cycle.

Accrued expenses are actual costs that have not yet been incurred but are provisionally recorded as production and operating expenses during the period to ensure that when the actual costs arise, they do not cause significant fluctuations in production and operating expenses. This is in line with the matching principle between revenue and expenses. When such expenses are incurred, any

### NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the second quarter ended Ended June 30, 2025

Form No. B09a-DN

differences between the accrued amount and the actual expense are adjusted by recording additional or reduced expenses corresponding to the difference.

### 4.11 Owner's Equity

### Owner's Contributed Capital

Owner's contributed capital is recognized at the actual amount contributed by the owners.

### Development Investment Fund

The development investment fund is appropriated from after-tax profit as prescribed in the Company's Articles of Association.

### 4.12 Profit Distribution

Undistributed profit represents the profit from the Company's business activities after deducting adjustments for retrospective application of changes in accounting policies and retrospective corrections of material errors from prior years.

Undistributed profit is allocated based on resolutions of the General Meeting of Shareholders, after offsetting accumulated losses (if any),

### 4.13 Revenue and Income Recognition

### Revenue from Sale of Goods and Finished Products

Revenue from the sale of goods and finished products is recognized when all the following conditions are met:

- The Company has transferred the significant risks and rewards of ownership of the goods or products to the buyer.
- The Company no longer retains managerial involvement as the owner of the goods or control over the goods.
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

### Revenue from rendering of services

Revenue from rendering services is recognized when the outcome of such transactions is determined reliably. For services rendered over multiple periods, revenue for the period is recognized based on the completion stage of the service as of the end of the accounting period. The outcome of a service rendering transaction is determined when all of the following conditions are satisfied:

- · The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The completion stage of the transaction as of the fiscal year-end can be determined.

as annued reliably, for a social rendered over the process revenue specification of the social time of time of the social time

 The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

### Interest Income

Interest income is recognized on an accrual basis, determined based on the account balances and the effective interest rate for each period.

### 4.14 Borrowing Costs

Address: Km17, National Highway 26, Hoa Dong Commune, Krong Pac District, Dak Lak Province

### NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the second quarter ended Ended June 30, 2025

Form No. B09a-DN

Borrowing costs include interest on borrowings and other expenses directly incurred in relation to borrowings.

Borrowing costs are recognized as expenses when incurred. However, if the borrowing costs are directly attributable to the acquisition, construction, or production of qualifying assets (those requiring a substantial period, typically over 12 months, to be ready for their intended use or sale), they are capitalized. For loans specifically used for constructing fixed assets or investment properties, interest is capitalized even if the construction period is less than 12 months. Any income generated from the temporary investment of borrowed funds is deducted from the cost of the related assets.

For long-term loans used in capital construction investments, capitalized borrowing costs are determined based on the average borrowing rate applied to activities such as rubber plantation maintenance during the establishment phase and maintenance during the exploitation phase.

### 4.15 Corporate Income Tax

Corporate income tax expense includes current corporate income tax and deferred corporate income tax.

### Current Income Tax

Current income tax is calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting treatment, non-deductible expenses, tax-exempt income, and loss carry-forwards.

### 4.16 Related Parties

Parties are considered related if one party has control or significant influence over the financial and operating policies of the other party. Parties are also deemed related if they are subject to common control or common significant influence.

In considering the relationships between related parties, the substance of the relationship takes precedence over the legal form.
