The company's initial business registration certificate number is 0900108038, dated January 4, 2005, and its 13th business registration amendment certificate was issued on May 24, 2023 by the Hung Yen Department of Planning and Investment.

The company's charter capital is 195,113,890,000 VND, and the par value of each share is 10,000 VND.

1.2. Business field: manufacturing and trading**1.3. Business activities:**

- Manufacturing and processing of garments;
- Import and export of the Company's products.

1.4. The characteristics of the company's operations during the period have an impact on the financial statements:

There are no material factors affecting the financial statements of the Company.

2. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

The Company's fiscal year is from 1 January to 31 December

Accounting currency: Vietnamese Dong (VND)

3. ACCOUNTING STANDARDS AND REGIME

The financial statements are presented in Vietnamese Dong (VND) and are prepared in accordance with the accounting principles prescribed by the enterprise accounting regime issued in Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 53/2016/TT-BTC dated March 21, 2016 of the Ministry of Finance, Vietnamese Accounting Standards, and other legal regulations related to the preparation and presentation of financial statements.

4. ACCOUNTING POLICY

The following are the principal accounting policies applied by the Corporation in preparing its interim financial statements.

4.1. Basis of financial statements

Financial statements are prepared on the basis of accrual accounting (except for information relating to cash flows)

4.2. Principles of converting foreign currency

All foreign currency transactions are translated into Vietnamese Dong (VND) for the purpose of preparing financial statements. This translation is performed in accordance with Vietnamese Accounting Standard No. 10 and Circular No. 179/2012/TT-BTC.

4.3. Accounting principles for financial investments

4.3.1. Held-to-maturity investments

Reflects investments that the Company intends and is able to hold to maturity, including: time deposits and bonds held for the purpose of earning periodic interest, excluding those presented in the items "Short-term receivables" and "Long-term receivables".

4.3.2. Loans:

Reflects loans made under contractual agreements between two parties as of the reporting date. Loans are initially recognized at original cost. Interest income is recognized as it is earned.

4.4. Investments in associates and joint ventures

4.4.1. Investment in associates:

- Reflects investments where the parent company holds directly or indirectly from 20% to less than 50% of the voting power of the investee (associate) without any other agreement.
- Investments in associates are initially recognized at cost. Subsequently, dividends received are recognized in financial income under the equity method.

4.4.2. Equity investments in other entities:

- Reflects investments in equity instruments where the parent company does not have control, joint control, or significant influence over the investee.
- Dividends and profits from these investments are recognized in financial income at fair value when the right to receive them arises.

4.5. Receivables and allowance for doubtful accounts:

Receivables are tracked in detail by original due date, remaining term at the reporting date, debtor, currency, and other factors as required by the parent company's management.

4.6. Inventory

Inventory is valued at cost. If the cost exceeds the net realizable value, inventory shall be valued at the net realizable value. The cost of inventory includes the purchase price, costs of conversion, and other costs directly attributable to bringing the inventory to its present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Inventory is valued using the weighted

NOTES TO THE FINANCIAL STATMENTS

FORM B09A - DN

average cost method. Inventory is accounted for on an accrual basis. The cost of goods purchased is calculated using the simple average method.

4.7. Tangible fixed assets

Tangible fixed assets are presented at cost less accumulated depreciation. The original cost of tangible fixed assets is determined at acquisition cost, except for certain fixed assets that are revalued when determining the enterprise value for shareholding.

The original cost of tangible fixed assets arising from acquisition and self-construction comprises all costs incurred by the Company to acquire the asset and bring it to the condition and location necessary for its intended use.

Tangible fixed assets are depreciated using the straight-line method. Depreciation expense is calculated by dividing the original cost of the asset by its estimated useful life, in accordance with Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance. The specific depreciation periods for different types of assets are as follows:

	Q2/2025 (Useful Life (years))
Buildings and Structures	05 - 25
Machinery and Equipment	03 - 07
Transportation Equipment and Transmission Equipment	05 - 08
Office Equipment	03 - 05

For tangible fixed assets invested from the welfare fund, the original cost of the tangible fixed assets is recorded as a one-time reduction of the welfare fund, and at the same time, the welfare fund that has formed fixed assets is increased. Depreciation of tangible fixed assets is recorded as a decrease in the welfare fund that has formed fixed assets.

4.8. Prepaid expenses

Prepaid expenses are recognized based on actual occurrence, including the cost of tools and equipment which are allocated to the operating results using the straight-line method over 24-36 months from the date of occurrence.

4.9. Accounts payable

Accounts payable are tracked in detail by original maturity date, remaining maturity date at the reporting date, payee, and other factors as required by the Company's management.

4.10. Borrowing costs

Borrowing costs are interest expenses recognized in the cost of production or operations in the period in which they are incurred.

4.11. Revenue and other income

Revenue from the sale of goods is recognized when all of the following criteria are met:

- The Company has transferred the significant risks and rewards of ownership of the goods to the buyer;
- The Company retains neither continuing involvement in the management of the goods that is typical of ownership nor effective control over the goods;

Revenue is measurable with reasonable certainty;

- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in connection with the transaction can be reliably measured.

Processing revenue is the actual processing fee earned, excluding the value of the materials or goods processed.

Revenue from providing services is recognized when all of the following criteria are met:

Financial income includes interest income, interest expense, dividends received, and foreign exchange gains.

Other income reflects income arising from transactions and other events that are separate from the ordinary activities of the Company, in addition to the revenue mentioned above.

4.12. Cost of goods sold

Cost of goods sold represents the direct costs attributable to the production of the goods sold during a period. These costs include the cost of materials, direct labor, and factory overhead.

4.13. Finance Costs
