Address: 16th Floor, WTC Tower Building, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal year

The fiscal year of the Company is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnamese Dong (VND) because transactions of the Company are primarily made in VND.

III. ACCOUNTING STANDARDS AND SYSTEM

1. **Accounting System**

The Company applies the Vietnamese Accounting Standards and System, which were issued in accordance with the Circular No. 200/2014/TT-BTC dated 22 December 2014 guiding the Vietnamese Accounting System, the Circular No. 53/2016/TT-BTC dated 21 March 2016 amending and supplementing certain articles of the Circular No. 200/2014/TT-BTC dated 22 December 2014 and other Circulars guiding the implementation of Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Interim Financial Statements.

Statement of the compliance with the Accounting Standards and System

The Board of Directors ensures to follow all the requirements of the Vietnamese Accounting Standards and System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 amending and supplementing certain articles of the Circular No. 200/2014/TT-BTC dated 22 December 2014 as well as the Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in preparation and presentation of the Interim Financial Statements.

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Interim Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Foreign currency transactions

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the period shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Company and the Bank.

 $Address:\ 16^{th}\ Floor,\ WTC\ Tower\ Building,\ No.\ 1\ Hung\ Vuong\ Street,\ Binh\ Duong\ Ward,\ Ho\ Chi\ Minh\ City\ INTERIM\ FINANCIAL\ STATEMENTS$

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

- For capital contribution made or received: the buying rate of the bank where the Company opens its account to receive capital contributed from investors as of the date of capital contribution.
- For receivables: the buying rate of foreign currency ruling as at the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate of foreign currency ruling as at the time of transaction of the commercial bank where the Company supposes to make payments.
- For purchases of assets or expenses with immediate payment in foreign currencies (not included as the payables): the buying rate of commercial bank where the Company makes such payments.

The exchange rate used to re-evaluate ending balances of monetary items in foreign currencies is determined in accordance with following principles:

- For foreign currency deposits: the buying rate of the bank where the Company opens its foreign currency account.
- For monetary items in foreign currencies classified as other assets: the buying rate of Joint Stock Commercial Bank for Investment and Development of Vietnam (BIDV) Binh Duong Branch, where the Company frequently conducts transactions.
- For monetary items in foreign currencies classified as liabilities: the selling rate of Joint Stock Commercial Bank for Investment and Development of Vietnam (BIDV) Binh Duong Branch, where the Company frequently conducts transactions.

3. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

4. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments of the Company include term deposits.

Held-to-maturity investments are initially recognized at cost including the acquisition cost and other transaction costs. After initial recognition, these investments are recorded at recoverable value. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received. Interest incurred prior to the Company's acquisition of held-to-maturity investments is deducted into the costs at the acquisition time.

When there is reliable evidence proving that a part or the whole investment cannot be recovered and the loss is reliably measured, the loss is recognized as financial expenses during the year and directly deducted into the investment costs.

Investments in subsidiary

Subsidiary is an entity that is controlled by the Company. Control is the Company's power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Initial recognition

Investments in subsidiary are initially recognized at costs, including the cost of purchase or capital contributions plus other directly attributable transaction cost. In case of investment in non-monetary assets, the costs of the investment are recognized at the fair value of non-monetary assets at the arising time.

Profits incurred prior to the acquisition of investments are deducted into the investment costs. Profits incurred after the acquisition of investments are recorded into the Company's financial income.

 $Address:\ 16^{th}\ Floor,\ WTC\ Tower\ Building,\ No.\ 1\ Hung\ Vuong\ Street,\ Binh\ Duong\ Ward,\ Ho\ Chi\ Minh\ City\ INTERIM\ FINANCIAL\ STATEMENTS$

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

Provisions for impairment of investments in subsidiary

Provisions for impairment of investments in subsidiary are made when the subsidiary suffers from losses at the rate equal to the difference between the actual capital invested by investors in subsidiary and the actual owner's equity multiplying (x) by the Company's ownership rate of actual charter capital invested by the Company in subsidiary. If the subsidiary is consolidated into Consolidated Interim Financial Statements, the basis for impairment provisions is the Consolidated Interim Financial Statements.

Increases/(decreases) in the provisions for impairment of investments in subsidiary as of the balance sheet date are recorded into financial expenses.

5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the age of debts after offsetting against liabilities (if any) or estimated loss as follows:

- As for overdue debts for telecommunications, IT, post-paid television, retail of goods with deferred/installment payment from individuals:
 - 30% of the value of debts overdue between 3 months and less than 6 months.
 - 50% of the value of debts overdue between 6 months and less than 9 months.
 - 70% of the value of debts overdue between 9 months and less than 12 months.
 - 100% of the value of debts overdue from 12 months and more.
- As for other overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue from 3 years or more.
- As for doubtful debts: Allowance is made on the basis of the estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administration expenses.

6. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandises: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs comprise costs of main materials, labors and other directly relevant expenses.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Address: 16th Floor, WTC Tower Building, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/(decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into costs of sales.

7. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include expenses of tools, land rental, survey materials and equipment, construction and repair expenses. These prepaid expenses are located during the prepayment period or the period of corresponding economic benefits generated from these expenses.

Expenses of tools

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 2 years.

Land rental

Land rental reflects the rental prepaid for the land being used by the Company. Land rental is allocated over the lease term as stated in the land lease contract.

Survey materials and equipment

Installing materials and equipment being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 5 years.

Construction and repair expenses

Construction and repair expenses are allocated into expenses in accordance with the straight-line method for the maximum period of 3 years.

8. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Company's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

9. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied is as follows:

Fixed assets	<u>Years</u>
Buildings and structures	02 - 25
Machinery and equipment	03 - 15

Address: 16th Floor, WTC Tower Building, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City INTERIM FINANCIAL STATEMENTS

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

Fixed assets		Years
Vehicles		05 - 20
Office equipment		03 - 05
Other tangible fixed assets		03 - 05

Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

The intangible fixed assets of the Company include:

Land use right

Land use right includes all the actual expenses paid by the Company directly related to the land being used such as expenses to obtain the land use right, expenses for house removal, land clearance and ground leveling, registration fees, etc. If the land use right is permanent, it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method from 2 years to 5 years.

Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Company) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

Contractual arrangement

Jointly controlled operations

In respect of its interests in jointly controlled operations, the Company shall recognize in its Interim Financial Statements:

- the assets that the Company controls.
- the liabilities that the Company incurs.
- the Company earns from the sale of goods or services by the joint venture.
- the expenses that the Company incurs.

Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

NS CO TRI V

VIETNAM TECHNOLOGY AND TELECOMMUNICATION JOINT STOCK COMPANY

 $Address:\ 16^{th}\ Floor,\ WTC\ Tower\ Building,\ No.\ 1\ Hung\ Vuong\ Street,\ Binh\ Duong\ Ward,\ Ho\ Chi\ Minh\ City\ INTERIM\ FINANCIAL\ STATEMENTS$

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Interim Balance Sheet on the basis of their remaining term as of the balance sheet date.

14. Provisions for payables

Provisions are recorded when the Company has present obligations (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

If time causes material effects, the provisions will be determined by deducting the amount to be spent in future to settle the liability at the pre-tax discount rate that reflects the assessments of the time value of money and the specific risks from this liability in the current market. The increase in provisions due to the effect of time will be recognized as a financial expense.

The Company's provisions for payables only include expenses on warranty of construction works.

Provisions for warranty expenses are made for each type of construction works under the commitment of warranty.

The extraction of provisions for warranty is 3% on total value of the construction. This rate is estimated on the basis of the warranty expenses in the previous years and weighted rate of all the possible bad results with corresponding probability. Upon expiry of the warranty period, provisions for warranty of construction works which are not used or not used up are recorded in other income.

15. Capital

Capital is recorded according to the actual amounts contributed by shareholders.

16. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders and Notice of dividend payment of the Board of Management.

17. Recognition of sales and income

Sales of merchandises

Sales of merchandises, finished goods shall be recognized when all of the following conditions are satisfied:

• The Company transfers most of risks and benefits incident to the ownership of merchandises to customers.

 $Address:\ 16^{th}\ Floor,\ WTC\ Tower\ Building,\ No.\ 1\ Hung\ Vuong\ Street,\ Binh\ Duong\ Ward,\ Ho\ Chi\ Minh\ City\ INTERIM\ FINANCIAL\ STATEMENTS$

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandises sold.
- The amount of sales can be measured reliably. When the contracts stipulate that buyers have the right to return products, merchandises purchased under specific conditions, sales are recorded only when those specific conditions are no longer exist and buyers retains no right to return merchandises (except for the case that such returns are in exchange for other goods or services).
- The Company received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

Sales of service provision

Sales of service provision shall be recognized when all of the following conditions are satisfied:

- The amount of sales can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, sales is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Company received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of sales is done on the basis of the volume of work done as of the balance sheet date.

Sales from real estates sold in form of land plots

Sales of real estates sold in form of land plots under irrevocable contracts shall be recognized when all of the following conditions are satisfied:

- the Company has transferred most of risks and benefits incidents to the ownership of the land use right to the buyer.
- the amount of sales can be measured reliably.
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.
- the Company received or shall probably receive the economic benefits associated with the transaction.

Income from leasing operating assets

Income from leasing operating assets is recognized in accordance with the straight-line method during the lease term. Rentals received in advance for several periods are allocated to revenues in consistence with the lease term.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Profit shared

Profit shared is recognized when the Company has the right to receive profit from the capital contribution.

18. Construction contract

Construction contract is a contract agreed for acquisition of an asset or combined assets closely relevant or mutually dependent on their design, technology, function or basic using purpose.

When the results of the contract implementation can be estimated reliably:

• For construction contracts in which the contractor is entitled to pay according to construction progress: sales and expenses relevant to the contracts are recognized to corresponding completed assignment determined by the Company as of the balance sheet date.

 $Address:\ 16^{th}\ Floor,\ WTC\ Tower\ Building,\ No.\ 1\ Hung\ Vuong\ Street,\ Binh\ Duong\ Ward,\ Ho\ Chi\ Minh\ City\ INTERIM\ FINANCIAL\ STATEMENTS$

For the 2nd quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

• For the construction contracts stipulating that the contractors are paid according to the work actually performed, revenue and costs related to these contracts are recognized in proportion to the stage of completion of contract activity as confirmed in the invoices made by the customers.

Increases/decreases in construction volume, compensations and other receivables are only recognized into sales when these are mutually agreed with the customer.

When the results of the contract implementation cannot be estimated reliably:

- Sales are only recognized equivalent to the contract's expenses and the payment is relatively reliable.
- The Contract's expenses are only recognized as the expenses when they occur.

Difference between total accumulated sales of construction contract recognized and the accumulated amount in the invoice of payment under the contract plan is recognized as receivable or payable under the contract plan.

19. Borrowing costs

Borrowing costs are interests and other costs that the Company directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

20. Expenses

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

21. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Address: 16th Floor, WTC Tower Building, No. 1 Hung Vuong Street, Binh Duong Ward, Ho Chi Minh City INTERIM FINANCIAL STATEMENTS

For the 2^{nd} quarter of the fiscal year ending 31 December 2025

Notes to the Interim Financial Statements (cont.)

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough taxable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough taxable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Company shall offset deferred tax assets and deferred tax liabilities if:

- The Company has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Company has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

22. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

23. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

2. Financial investments

The financial investments of the Company include held-to-maturity investments and investments in subsidiary. The Company's financial investments are as follows:

2a. Held-to-maturity investments

This item reflects deposits of which the term is from 6 months to 12 months at BIDV – Binh Duong Branch.

2b. Investments in subsidiary

According to the first Business Registration Certificate No. 3702979423 dated 14 May 2021 and amended for the 3rd time on 15 April 2024, granted by the Department of Planning and Investment of Binh Duong Province, the Company invests in VNTT Solutions Company Limited an amount of VND 25.000.000.000, equivalent to 100% of charter capital. As of the balance sheet date, the Company fully contributed the capital to VNTT Solutions Company Limited.

Fair value

The Company has not measured the fair value of the investments because there is no specific instruction on measurement of fair value.

Operation of the subsidiary

VNTT Solutions Company Limited is in the early stage of operation and has not yet generated profit.

Provisions for investments in other entities

Fluctuations in provisions for investments in other entities are as follows:

Current period	Previous period
12.172.178.512	13.556.532.226
